

The Royal British Legion

Galanos House Refurbishment Works

Project Background

Run by the Royal British Legion, Galanos House offers nursing and personal care as well as respite and day care for the Armed Forces community and their families. The care facility has 91 ensuite bedrooms.

Trident Construction Services Ltd were appointed to carry out a variety of refurbishment and improvement works at Galanos House including internal refurbishment and remodelling of staff and user areas. External upgrade works including a covered walkway were also undertaken as part of the works.

All works were delivered safely, on time, on budget and to a high standard of quality.

Value

£95k

Duration

6 Weeks

Summary of Works

- Internal and External Refurbishment Works
- Live Environment
- Covid-19 Safe Working Practices
- Great feedback from a repeat client

Reference

Richard Fardon,
RFardon@britishlegion.org.uk

Live Environment

All works were undertaken and managed in a live care environment.

This involved careful consideration and planning of the works to allow the works to proceed without causing disruption to the day to day running of the facility.

Covid Safe Working

Safe working practices in relation to Covid-19 were adhered to at all times, this included embedding both the Client's and latest government guidance into our own operating procedures.

Collaborative Approach

The project was carried on multiple work faces across the site, this meant that we had to be flexible in our approach and proactively react to the live environment in which we were working. This approach ultimately led to the success of these works, we are currently due to commence further works on the strength of this success.

"Trident Construction Services Ltd have not only delivered a quality project, they have seamlessly operated within a live specialist care environment whilst adhering to strict Covid-19 safety measures and have been a pleasure to work with"

Richard Fardon,
The Royal British Legion
